Keeping Harrogate Cyclists Moving

Campaigning for Cyclists

10 ACTIONS TO GEAR UP CYCLING IN 2014

1. Establish a cycling forum recognised by the Local Authorities to represent the interests of cyclists in the Harrogate District.
2. Support the agencies and organisations staging the Tour de France to ensure it is a huge boost for the district cycling and raises the profile of cycling in the area.
3. To promote the NCN 67 (Harrogate-Spofforth) route as a legacy project coming out of the Tour event and work with agencies to make it happen.
4. To ensure all cyclists in the district are aware of the British Cycling Federation cycling code of conduct and act responsibly at all times.
5. Work with all agencies to stage and promote cycle training for all new (and existing) cyclists.
6. To ensure that all new developments in Harrogate take account of cycling as both a leisure and commuter activity by working with developers and Local Authorities at an early stage.
7. Plan to stage an anniversary cycle ride in July 2015 based upon the Tour de France route for all cyclists.
8. To provide a forum for the public to comment on cycling issues and act upon them.
9. To promote through the media the positive health benefits of cycling.
10. To work with all agencies to maintain the existing cycle network to a good standard and to plan for its future expansion.
